

I CALLED ON JESUS

Johnathan Bond/Zac Clifton/Allen Price

HIS Choice Music/BMI

Verse:

He was sitting all alone at the break of dawn on a park bench in Baton Rouge
I must have caught his eye as I walked by with a half empty bottle of booze
I turned away he said son please stay I just want to talk to you
You may not see it now but I know somehow you're gonna make it through

Verse:

Many years ago I walked that same road I fought the same battles as you
I drank my pain away trying to escape I didn't know what else to do
Then I was told of someone who could take what I've done forgive it all and make me brand new
I said take me to that man I wonder if he can maybe do that for me too

Chorus:

I called on JESUS and heard my plea
He met me where I was and He rescued me
He called me by name He took my hand
He picked me up gave new life to this broken man
When he called on JESUS

Verse:

Later that night his words filled my mind I'm so much like he used to be
I really do need help gotta try and find myself I know I need to be made free
But with all that I've done how can someone ever care that much about me
I said maybe he is right I should try that tonight that's when I fell to my knees
