Verse:

I was only eight years old at that old time gospel meeting
Seemed that preacher he was preaching straight at me
When he gave the invitation my heart began a racing
and I met JESUS there on my knees

Verse:

Now that I'm older he's never left my side yes the Lord has been with me all along the
way and when my world began to crumble I just simply humble myself fall down on my
knees and pray

Chorus:

He has never left me even when I've done wrong he picks me up dust me off helps me
to go on he's closer than a brother yes he's my dearest friend and I love to talk about
him.

Verse:

Now I'd like to introduce you to this friend of mine I'm sure you've heard about him long
ago. He gave his life on Calvary to save both you and me
A friend like no other, HE's been tried & true
