

IT'S ALMOST TOMORROW

VERSE:

I know you're struggling.
I know you're tired.
I know that life's not always fair.
But I'd like to remind you that
Joy comes in the morning
and it's almost tomorrow

CHORUS:

It's almost tomorrow
there's a better day ahead
Don't settle for that place that you're in
You will learn from this struggle and God will use it for your good,
And that your lesson for today
but it's almost tomorrow

VERSE 2:

You see I've been in that same hole
1000 times before
So dark I couldn't see the light
But I stand here today
GOD brought me here to say it's almost tomorrow
