

LET HIM GO

Writer/Publisher: Johnathan Bond/HIS Choice Music/BMI

He's just 10 years old but already knows
He wants to follow in his daddy's footsteps
He 's made up his mind to leave everything behind
And go fight for our country not matter where it is

PRE-CHORUS:

But the mom in me is just a little scared
I want to protect him from everything out there

CHORUS:

But I must let go, give him to the lord
I've got to trust that GOD loves him even more
In my heart he will always be
That little boy sitting on my knee

I got a call today that took my breath away
The captain said sir your son gave his all
He fought hard and served his country well
My whole world just crumbled as the tears began to fall

Bridge:

Reminds me of another man who watched his son leave
To die on a rugged cross to give life to you and me
