Verse 1:

Is there any way I could talk to you for a moment
Take away the stage, the lights, the crowd, just you and me
I'd love to testify of GOD's mercy and goodness
Let me tell you what HE brought me through

Verse 2:

Not too long ago I found myself in darkness
Circumstances out of my control
But when I called out the name of JESUS
HE took my broken pieces and made me whole

Chorus:

HE said Never forget I'm right here with you
Never forget you're not alone
Though the battles you face may seem stronger
I won't ever let you go, never forget

Verse 3:

Have you found yourself alone on the bottom
Facing a mountain hard to climb
Don't give up a brighter day is coming
Look through the storm and see the sunshine
