## **VERSE:**

When I started this journey of faith with every step I would take  
You were there, you were there  
And the more that I trusted in you the more this faith in me grew  
You were there, oh, you were there

## **PRE-CHORUS**

But one day the sky grew dark and my perfect world fell apart  
From the depths of my broken heart

## **CHORUS:**

You were there too, you were there, too  
In that desperate place I somehow found grace  
Cause you were there too  
Though it seemed all hope was gone  
You were right there all alone  
You kept loving me all the way through  
You were there, too  
You were there, too

## **BRIDGE:**

I have climbed the high mountains  
Crossed raging rivers crawled through the valley of death  
But I've not been forsaken each morning I'm awaked to feel you with every breath
