

TAKE ME BACK

Writers: Johnathan Bond/Jeremy Abbott

Publisher: HIS Choice Music/BMI

Chorus:

Take me back to the place
The place we first met
That day your eyes caught mine, I will never forget
When I reached for your love
Right then I knew
All that was missing in me was you, take me back to the place

Remember that smile, your cute little laugh
All of those memories keep taking me back
Even in this storm we'll make it through
Hold onto me and I keep holding you
Just as God has pulled us through
He'll take us back just me and you

Oh man how things change, our little family's grown
Through love, tears, and laughter, God's blessed our home
Even as this disease steals your mind
I will always be here, your heart with mine
