

# THAT'S WHERE IT ALL BEGAN

## **1<sup>st</sup> Verse:**

They came to my bed  
Carried me away  
They wanted to take me  
To a man who was preaching that day  
The crowd was so great  
I could not get in  
So I was taken to the rooftop  
That's where it all began.

## **Chorus:**

That's where it all began  
The day he opened up my heart  
I found strength enough to stand  
He gave me a brand new start  
Don't know where I would have been  
Without the faith of family and friends  
That's when he heard my plea  
Broke my chains and set me free  
That's where it all began

## **2<sup>nd</sup> Verse:**

My world came crashing down  
I was falling apart  
My life tattered and torn  
So empty, confused and dark  
Then I heard about that man  
Who could take away my sin  
I said friend will you take me to him  
That's where it all began
