

There's Still Hope

Vs. 1

The disciples were sailing on the sea one day
Their boat was tossed from the winds and waves
Fearing that they had lost all control
But in the darkest of night there stood hope

Chorus:

There's still Hope, standing right here
With His arms open wide He's reaching for you
There's no need to worry, no need to fear
Lift up your head, Jesus is near
He's sent me here so you would know
There's still Hope!

Vs2.

Maybe your hope seems like an ocean away
Drowning in the problems and the struggles every day
Can't find the answer to all that you face
Though the struggle is real I bring Hope

Bridge:

He's an ever present help, when you call on His name
Trust Him today you will never be the same
