

# **I WISH YOU WERE HERE**

Writers: Johnathan Bond/Zac Clifton

## **CHORUS:**

I felt lonely tonight for the first time in a long time  
I looked over and saw your empty chair  
I'd give everything I have for just one more day with you  
I miss you and wish you were here

## **VERSE:**

I looked around the house today, but didn't see you  
Seems like forever since the day you disappeared  
And my heart that was once full is now empty  
Cause your leaving caught me unaware

## **VERSE:**

it seems that I just can't run from the memories  
Happy moments flood my mind, I can't break free  
Lord knows that I've done my share of crying  
But looks like my tears won't bring you back to me
