

YOU WERE THERE TOO

Writers: Johnathan Bond/Marty Funderburk

VERSE:

When I started this journey of faith with every step I would take
You were there, you were there
And the more that I trusted in you the more this faith in me grew
You were there, oh, you were there

PRE-CHORUS

But one day the sky grew dark and my perfect world fell apart
From the depths of my broken heart

CHORUS:

You were there too, you were there, too
In that desperate place I somehow found grace
Cause you were there too
Though it seemed all hope was gone
You were right there all alone
You kept loving me all the way through
You were there, too, you were there, too

BRIDGE:

I have climbed the high mountains
Crossed raging rivers crawled through the valley of death
But I've not been forsaken each morning I'm awaked to feel you with every breath
